PROFESSIONAL EXPERIENCE

Data Suits | Financial & Business Analyst (2025 – 2026)

- Built KPI dashboards and executive reports using Excel and Power BI to monitor operational and financial performance.
- Managed multiple financial analytics initiatives simultaneously, coordinating stakeholders, timelines, reporting deliverables and business priorities while ensuring on-time execution.
- Developed interactive Power BI dashboards and automated reporting solutions tracking financial performance, operational KPIs, budgets and business metrics.
- Developed financial models, KPI dashboards and reporting automation solutions supporting financial operations, payments monitoring and business performance analysis.
- Performed operational controls, financial reconciliations and data quality reviews to ensure reporting integrity.

Crédit Mutuel Group | Business Banking Relationship Manager & Financial Analyst (2023–2025)

- Analyzed financial and operational data to support business operations, budget monitoring, forecasting activities, performance reporting and management decision-making across a portfolio of 500+ business clients.
- Built and maintained executive reports, KPI dashboards and Power BI/Excel reporting tools, delivering actionable insights on financial performance, profitability, commercial activity and operational trends.
- Coordinated cross-functional workstreams across Finance, Sales, Operations, Risk and Compliance teams, ensuring stakeholder alignment, tracking priorities, resolving operational issues and supporting the successful delivery of strategic initiatives.
- Supported financial planning, business reviews and executive presentations by preparing financial reports, variance analysis, performance updates and leadership reporting deliverables for senior management.
- Improved operational workflows, reporting processes and performance tracking mechanisms by identifying process gaps, implementing efficiency improvements and ensuring continuity of financial operations and business activities.

Crédit Mutuel Group | Investment & Portfolio Performance Analyst (2020–2022)

- Produced strategic financial reporting, profitability analyses and performance reviews supporting investment decision-making.
- Conducted portfolio risk assessments and investment performance evaluations.
- Supported commercial development initiatives through client advisory, relationship management and financial consulting activities.
- Contributed to portfolio optimization strategies and long-term investment planning.

Société Générale | Financial Crime, Fraud & Risk Analyst (2019–2021)

- Conducted AML investigations, transaction monitoring reviews and financial crime risk assessments.
- Investigated suspicious transactions, analyzed alerts and escalated high-risk cases in accordance with regulatory requirements.
- Reviewed customer documentation, source of funds information and risk indicators to support compliance decisions.
- Identified fraud patterns, suspicious behaviors and financial crime risks requiring escalation and further investigation.
- Contributed to process improvements, risk mitigation initiatives and compliance workflow optimization.
